

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Joe & Diane Bagdanskis
DOCKET NO.: 03-22715.001-R-1
PARCEL NO.: 08-07-211-005-0000

The parties of record before the Property Tax Appeal Board are Joe & Diane Bagdanskis, the appellants, by attorney Michael Griffin of Chicago, and the Cook County Board of Review.

The subject property consists of a 35-year-old, multi-level, single-family dwelling of frame construction containing 1,447 square feet of living area and located in Elk Grove Township, Cook County. Features of the residence include two full bathrooms, a partial-finished basement and a two-car attached garage.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of the inequity claim, the appellants submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellants also submitted a one-page brief, Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellants' documents, the three suggested comparables consist of multi-level, 35 or 36-year-old, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,331 to 1,369 square feet of living area. The comparables contain one and one-half or two full bathrooms, a partial-finished basement and a two-car attached garage. The improvement assessments range from \$11.87 to \$12.49 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,770
IMPR.: \$ 17,230
TOTAL: \$ 22,000

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$23,675. The subject's improvement assessment is \$18,905 or \$13.06 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, single-family dwellings of frame construction located within a distance of .19 miles from the subject. The improvements range in size from 1,059 to 1,227 square feet of living area and range in age from 38 to 41 years. The comparables contain one and one-half or two full bathrooms and a partial or full-finished basement. Two comparables contain a one-car detached garage. The improvement assessments range from \$12.99 to \$14.44 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have overcome this burden.

The Board finds the appellant's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$11.87 to \$12.49 per square foot of living area. The subject's per square foot improvement assessment of \$13.06 falls above the range established by these properties. The Board finds the board of review's comparables less similar to the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have adequately demonstrated that the subject property was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
